

JANUARY 2019

MONTHLY MONITOR

Market Update

India Subcontinent Region

India - **Air and Ocean** space ex. India from all major ports (Air and Sea) is presently smooth; no service issues to report at the current time.

Bangladesh - **Air and Ocean** space is available and there are currently no service issues.

Sri Lanka - **Air and Ocean** space is available and there are currently no service issues hindering cargo movement .

Hong Kong - **Air** space is available and we expect there will be no capacity issue prior to Chinese New Year Holiday (CNY) in the beginning of February. **Ocean** space is available and will become tight before CNY. For US Shipments, last HK CFS closing is January 23rd before CNY.

For the third consecutive year, Wen-Parker Logistics was named a Great Supply Chain Partner by Supply Chain Brain Magazine!

Shanghai – **Air and Ocean** space is available and there are currently no issues for service to the United States. We expect the space will get tighter late January, as the CNY approaches in early February.

South East Asia

Cambodia - **Air** space to the US (JFK) is a little tight but still manageable. **Ocean** transport capacity is good and there are no service issues.

Indonesia – **Air and Ocean** space is available and there are currently no service issues.

Malaysia - There are currently no space and service issues relating to either mode of transportation.

Philippines - **Air and Ocean** space is available and there are currently no issues for service to the United States.

Thailand – **Air** and **Ocean** space is currently available. There are very minor delays ex. BKK seaport, while there are no reported issues for BKK airport.

Vietnam – **Air** and **Ocean** space is available and there are currently no issues for service to the United States.

Europe

London – **Air** space is available with no service issues to report. The same is true for **Ocean** as relating to space and service issues.

United States

No delays or issues at any US **Ocean** ports or **Airports**.
