

MARCH 2019

MONTHLY MONITOR

Market Update

India Subcontinent Region

India - **Air** capacity from all major airports is available; however, recent tensions between Pakistan and India have affected north Indian airspace, causing potential delays and re-routing. **Ocean** space is available and operations are running smooth.

Bangladesh - **Air** space to Canada is tight but space is available to Europe and Far East. There are no **ocean** or **air** service issues hindering cargo movement to the United States.

Sri Lanka - There is no **Air** or **Ocean** service or space issues hindering cargo movement to the United States.

Hong Kong - **Air** capacity is available; there are no current service issues to report. **Ocean** space is available and there are no service issues but there are delays for cargo destined for USWC ports due to ongoing weather issues and congestion at LAX/LGB.
